# Project 6

Chih-Hsiang Wang
wangchih@oregonstate.edu

Link to Media: None

Color transfer function: Rainbow Uniform
Because there are about six colors to display the variance of the data. We can easily get the information from blue to red.
For the left image colored by magnitude and right image colored by curl, it is obvious to distinguish the difference.
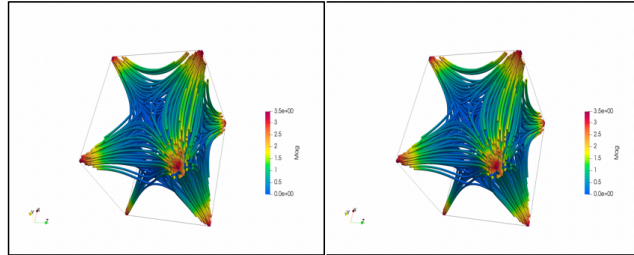

data: vector.csv

The Left Two Images Work Well Together in my Handheld Stereo Viewer

L   **R**

Print this page and cut out the two images together

Don't resize these images – they fit perfectly in the viewer as they are now.
